SMITH BROTHERS: SEED: COMPANY
AUBURN, N. Y., January 2, 1911

As we mail you our 1911 Catalogue we cannot fail to thank you for your liberat patronave of 1910, and we feel that we done our best in sending you good seeds and hope they proved satisfactory. The sendon of 1910 was the targest and most satisfactory in our five years of business and more than double, which we think speaks for itself, that Smiths' seeds are good.

Our aim is to offer good seeds and novelties that we are sure will please, and no matter how small or large the order is, we try to give it our prompt and personal attention, yet with this we know we have some unsatisfied customers, for we have on hand, unfilled, over 2000 orders

Our aim is to offer good seeds and novelties that we are sure will please, and no matter how small or large the order is, we try to give it our prompt and personal attention, yet with this we know we have some unsatisfied customers, for we have on hand, unfilled, over 200 orders that bear no name or address and which we are unable to fill on this account. We have a fine lot of Farm, Garden and Flower Seeds to offer this season, and being growers, direct buyers and importers we are able to offer choice and fresh seeds to our customers at a very low price, also Novelties that have been carefully selected. Our book, while not so large as many, is compact with seeds the average person wants for his or her garden or flower bed. We are receiving orders from every COUNTRY on the GLOBE, it must mean that our seeds and method of handling orders count rather than an elaborate catalogue.

We hope we may have the pleasure in again filling your order this season, also that of your neighbor's; a Catalogue will be mailed them

free upon request. Advising you to place your orders early, we remain, very truly yours,

SMITH BROS. SEED CO. H. C. SMITH, President.

If you receive more than one copy of this Catalogue, please hand the extras to someone who wants good seeds cheap.

DIRECTIONS FOR ORDERING:

How to Order = In making out your order, always write Name, Postoffice, County and State and the varieties you want, quantity of each, and carry out the catalogue price after each one and enclose the total amount in any convenient form of remittance and send it to us by mail. Be sure to use our Order Blank if you have it.

Mail or Express="We send Seed postpaid by mail at the prices named in this catalogue, except where there are special quotations for the goods to be sent by Express, customers to pay the charges. To points where the Express Companies touch, we can send some orders as cheaply by express as by mail. Whenever we do this we notify the purchaser to that effect.

Express or Freight==We do not prepay Express or Freight, except in case we have quite an order purchased at postpaid prices to deliver and may prefer to send by Express prepaid.

Prepaid Railroad Stations==Some customers live near prepaid railroad stations where there are no agents. In such cases we cannot ship unless we prepay the charges and whenever it is possible we ship to the nearest station to this prepaid station, as we never pay freight charges.

How to Send Money We advise our customers to send money by either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter. Small amounts will be accepted in postage stamps when it is not convenient to send anything else, Silver or gold coin should be sewed or pasted in cloth or pasteboard to prevent breaking through the envelope, and then it should be registered. Do not send money loose in a letter; it is not safe, and, if lost, we are not responsible for it.

Terms and C. O. D. Shipments=Dur terms are strictly cash with the order. We must decline to ship goods C. O. D. unless the purchaser remits in advance at least one-third the amount of the order, and we do not accept C. O. D. Orders for less than \$2.90 on any goods we sell.

Guarantee==We give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

SMITH BROS. SEED CO., Auburn, N. Y.

GIANT STRINGLESS GREEN POD

This is without question one of the most popular in existence. It is very early, producing a great abundance of round fleshy rich green pods from 5½ to 6 inches in length. It is of the very finest flavor, and the plant continues to bear for several weeks, supplying enormous quantities of tender, brittle pods, Unexcelled for canning, market gardeners or home use. Our stock is strictly pure. Pkt. 5c.. 3 pkts. 12c. ½ pt. 14c.. pt. 25c., qt. 46c., postpaid. By Express or Freight, not prepaid. 4 qts \$1.10. pk. \$1.85.

IITHS' IMPERIAL WHITE BEAN Smiths' Imperial White Bean—The new bean for baking; very large and long pods, cook tender, and of excellent flavor. Cannot be surpassed by any bean on the market today that we know of. It is not only a garden bean but grown by the acre by farmers who make that a business. They are very large yielders and will withstand rust and spots better than others. Many a family has longed for the old fashioned Boston Baked Beans and here they are; try a few, if no more this season, and they will please far beyond your anticipations. Our stock is grown for our trade only and it is the best we ever had to offer the public. Prices: Pkt., 5c.; ½ pt., 15c.; pt., 25c.; qt., 40c. postpaid; by express or freight, pk., \$1.25; ½ bu., \$2.25; bu., \$4.

THE BOUNTIFUL

This is an excellent wax bean .Pods are a rich golden yellow color, extremely large and of the very finest quality. The vines are hardy and produce enormous quantities of long, thick fleshy pods. CAULIFLO

Smiths' Great Gourd Mixture

HIS is a magnificent cabbage and we consider it is the best extra early round flathead variety grown. The deep, flat heads are remarkably solid and the most uniform in shape and size of any variety in cultivation on account of its rapid growth; it surpasses other varieties of its class in this respect. The heads grow so compact, and fully 500 more can be grown to the acre than other cabbages. The stem is short and the heads often attain a weight of 5 lbs. and are very solid and firm. Pkt., 5c., 3 pkts., 12c., oz., 16c., 2 oz. 30c., 4 lb., 55c., ½ lb., \$1.00, lb., \$1.75.

All Head Early-Is one of the best summmer cab-bages in cultiva-tion. The heads are very uni-form, re-remarkably remarkably
solid, flat
and deep.
It is the
most thorough bred
of all Ame r i c a n
cabbages.

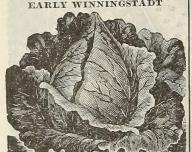

FRt. 5c.; 3 pkts., 12c., oz., 14c., 2 oz., 25c., ¼ lb., 45c..½ lb., 85c., lb., \$1.60.

EARLIEST OF ALL

If you want the Best Extra Early Cabbage in the world, you should not fail to order Early June.

ALL HEAD EARLY CABBAGE

All Seasons' Cabbage—This Cabbage is good early, medium or late, just as its name indicates and can be planted at all seasons, producing fine large heads not liable to burst after heading. Pkt., 4c.. 3 pkts. 10c., oz. 12c.. 2 ozs. 20c. ¼ 1b., 35c., ½ 1b., 65c., lb., \$1.25.

Forms large cone-shaped heads of excellent quality. Will grow solid heads in seasons when other sorts fail. It is a good reliable cabbage. Pkt. 4c., 3pkts. 10c.. oz, 14c.. 2oz. 25c., ¼ lb., 45c., ½ lb., 85c.

MAMMOTH ROCK RED

This is the best red cabbage known; heads of a deep red, inside and out, and almost as solid as a rock. For pickling purposes nothing can surpass this variety. It is planted by all leading market gardeners and always demands a ready sale. Pkt. 5c.. 3 pkts. 12c., oz. 15c., 2 oz. 26c.. ¼ lb. 50c. This is the best red cabbage known; heads

Special Offer: We will mail any 4 packets of Cab-

bage Seed offered in this catalogue (customer's own selection) for only 15c.

JUNE SMITHS' EARLY Earliest of All!

This is our great specialty and is just what its name indicates. Quickest growing of all cabbages and will please every one. Heads are good sized, shape shown by illustration. Very solid, of the best quality. Can be planted close together and always sure to head. A great favorite where once planted. Pkt., 5c.; 3 pkts. 12c., 7 pkts. 25c., oz., 15c., 2 ozs. 28c., ¼ lb., 50c., ½ lb. 90c., lb. \$1.75.

This variety always forms large solid heads, uniform in size and color and handsome in appearance. The stem is short and nearly every plant set out will form large solid heads. Farmers who grow cabbage for a late crop should grow this one on account of its weight and size. It is always very solid, extra fine grained and a wonderful keeper.

Pkt. 4c., 3 for 10c., oz. 15c., 2 ozs. 25c., ½ lb., 40c.

CHINESE CABBAGE This is a delicious Cabbage grown very extensively by the Chinese and is regarded as somewhat sacred by them.

IMPROVED DANISH BALL-HEAD-This new Cabbage comes
from Denmark, and
is one of the very
best to grow for
market. The heads
are hard, round, of
good mark etable
size, fine grain,
good keepers and
have become very popular in many sections as a
main crop cabbage. Pkt. 5c, 3 pkts. 12c., oz. 30c.,
4 lb, \$1.00, ½ lb. \$1.90, lb. \$3.50 postpaid. Cabbage . comes

often weigh 40 to 50 pounds

This is a late variety and is rightly named, for the heads are always very hard and grow idea of the beautiful appearance, but does not show the compact as shown by the illustration. The heads being so round and deep, are not liable to delicate blanching. The flactack. There are no coarse ribs or stems to be found in a head. It is a vigorous grower and will stand drought to a remarkable degree, heads averaging from 8 to 12 pounds each throughout a whole crop. Grand sort to store for spring market.

Pkt. 5e., 3 pkts. 12c., 6 pkts. 20c., oz. 30c., 2 oz. 55c., ¼ lb., \$1.00.

Short Stem Drumhead Cabbage

Giant

Solid

Head

Very few varieties can equal this famous sort for productiveness. Excellent cooking and keeping qualites and large sized heads. They grow very uniform in size are round and flattened on the top and make a handsome appearance as shown by the illustration, It always heads well, often when other varieties fail, and is the leading variety in many sections to plant for market. Very popular in the South.

15c., 2 oz. 25c. ¼ lb. 45c., ½ lb. 85c., lb. \$1.60.

Surehead Cabbage

This is the surest heading variety in existence. It is always sure to head, producing large, solid, firm heads even in the most unfavorable seasons. Heads large, round and often weigh from 40 to 50 pounds each. Very tender, free from large ribs, never cracks on top or side of head. It is a good one. Pkt. 4c., 3 pkts. 10c., oz. 14c., 2 ozs. 25c., ½ lb. 45c., ½ lb. 85c., lb. \$1.65, postpaid.

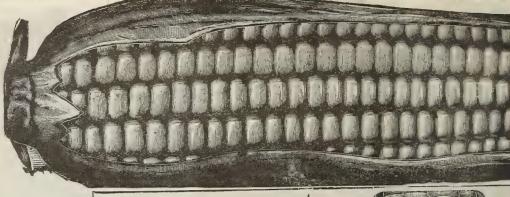

Smiths' Celebrated Cabbage Mixture

This mixture will prove a great curiosity as well as very valuable. A continual supply of the very earliest to the latest varieties may be had from it. Those who do not care to keep varieties separate will find this mixture just what they want. We know it is just the thing for a family garden. Try this mixture this year.

Pkt. 4c., 3 pkts. 9c., 6 pkts. 16c., oz. 12c., 2 ozs. 20c., ½ lb. 35c.

Golden Bantam

Smiths' First of All-This is one of the best early vari-eties, earlier than the eties, earlier than the Cory, and very valuable for family use or market purposes. It is more dwarf in growth than the Cory and much superior, and we can recommend it as being one of the earliest varieties in cultivation.

Pkt. 5c. 3 pkts. 12c. 4 pt. 14c., pt. 25c., qt. 36c., postpaid. By express or freight not prepaid, pk. \$1.15.

Golden Bantam

This is an excellent early golden Sweet Corn. It has a very rich, sweet flavor, stalks grow about four feet in height and produce from one to two good ears on each stalk, being from five to six inches in length. When the ears are ready for use, the grains are a bright golden yellow, being rich and sugary and sweetest of all. Pkt. 5c. 3 pkts. 12c. ½ pt. 14c. pt. 26c. qt. 40c.. postpaid. Peck, \$1.25, ½ bu. \$2.25. This is an excellent

This is a very early variety. The ears are large, sweet and fine and one of the earliest to mature, with exceptions of the Fourth of July and First of All. A splendid variety,

Pkt. 5c. 3 pkts. 12c., ½ pt., 15c., pt. 25c., qt. 36c., postpaid; by expres or freight, (not prepaid), peck, \$1.00.

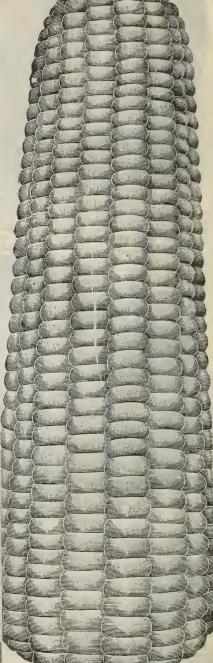

Stowell's Evergreen

Well known everywhere, one of the best for home gardens, gardeners or canners. It is very sweet and tender and holds its flavor longer than almost all other varieties. We offer the very best strain of Evergreen on the market.

Pkt. 5c. 3 pkts, 12c. ½ pt. 12c., pt. 20c., qt. 35c., post-By express or paid. freight pk. \$1.25. ½ bu, \$2.25.

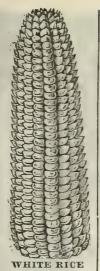

This is the great early Sweet Corn everybody wants, and we believe it will be found the earliest of all ways well filled. It is tender, sweet, and most detweet corn in cultivation. The ears are good sized for such an early variety, making it very valuable in sirable for table use. The stalks grow only about 4 feet high, and bear from 2 to 4 ears to a stalk, always well filled this respect. The stalks grow only about 4 feet high, and bear from 2 to 4 ears to a stalk, always well filled Qt. 40c. postpaid. By express or freight not a bead of your neighbors, try our Fourth of July. Pkt. 5c., 3 pkts. 12c., ½ pt. 15c., pt. 25c. postpaid. prepaid pk. \$1.30., ½ bu. \$2.25.

WHITE EVERGREEN

Greatest yielding variety of Pop Corn Stalks grow about feet high and somet times ten ears have been grown on a single stalk. Popping qualities good. Pkt. 5c., 3 pkts. 12c.

This is a well-known variety and the leading sort in market. Pkt., 4c., 3 pkts., 10c., ½ pt., 14c., postpaid.

RED RICE
This resembles our white rice in every way except color, being a pretty deep red.
Pkt. 4c., 3 pkts10c., postpaid.

This is the smallest Pop Corn in existence, but is very prolific, producing from five to ten ears on a stalk, each from 134 to 2½ inches long. Kernels are golden color of rice type. Pops exceliently. Pkt. 5c., 3 pkts. 12c.

GOLDEN TOM THUMB

Produces from two to four perfect ears on each stalk from 2 to 2½ inches long. Kernels of a bright golden yellow. Matures very early and is excellent for popping. Pkt., 5c., 3 pkt., 12c.

SMITHS' MAMNOTH EARLY 8-ROWED YELLOW FLINT CORN—This is a splendid extra early Yellow Flint Corn and has proved to be all that is claimed for it. The ears are large sized, being the longest of any variety of Flint Corn that is grown, it is the purest, hardsomest, heaviest and best Yellow Flint Corn in this country and often bears from two to four large ears to a stalk. Our stock is fine and we want you to try it. Pkt. 10c., pt. 26c., qt. 38c. postpaid. By express or freight (not prepaid) 4 qts. 40c., pk., 70c.. ½ bu. \$1.25, bu., \$2.25. Sacks free.

results a crop will bring. Pkt. 10c., pt. 20c., qt. 35c., postpaid. By express or freigh

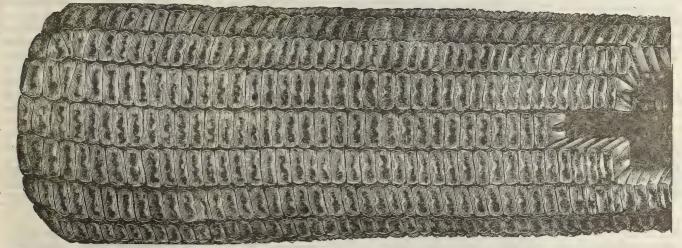

EARLY BIRDS' CLAW FLINT CORN—This new and very early yellow flint corn, has a very small cob and ears of good length, grain is tinted red, stalks of good height and of fine quality. Our retail customers being so well pleased with this corn we are offering it for the first time to our mail order customers and are sure you will be pleased with the By express or freight, pk. 60c., ½ bu. \$1.10, bu. \$2.00. Sacks free.

NORTHERN WHITE FLINT CORN—The Great Field Corn of the Day—It will give satisfaction where other corn fails, as it does not need as strong a land as the yellow varieties, although on good land it will give a larger yield. It is an extra variety for cold climate as it will endure a cold season far better than any other. It is a great drought resister and will produce large crops where others fail. It has long white ears and is the earliest white corn grown. It is sometimes grown in the South for green roasting. We have some fine stock this year and will be pleased to have our customers try it. Pkt. 10c., pt. 20c., qt. 35c., postpaid. By freight or express, pk. 65c., ½ bu. \$1.15, bu, \$2.25. Sacks free.

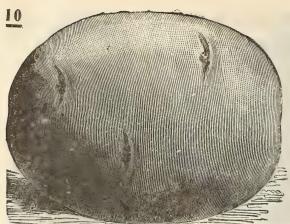

EARLY GOLDEN DENT OR PRIDE OF THE NORTH-A very early Dent variety. Stalks small, with broad leaves, ears short, twelve to sixteen rowed, well filled. Grain long, yellow, making an extra quality of meal. Pkt. 6c., pt. 20c., qt. 35c., postpaid. By express or freight, pk. 60c., ½ bu. \$1,10, bu. \$2,00. Sacks free.

SMITHS' IMPROVED LEAMING OF WESTERN CORN—A very popular and extreamly productive variety. One of the best silo corns that are grown today. On good land the stalks grow tall, producing two ears on a stalk. The ears are long, with small red cob well filled with grain of mediam size and rounded at the small end, of a rich golden color. It ripens in from 100 to 110 days, and makes a good crop even in a dry season, by reason of its strong, vigor ous growth, Stalks are very tall with broad leaves, making excellent fodder while the grain, being so deep, yield an extra large quantity of shelled corn per acre. Pkt. 10c., pt. 20c., qt. 35c., postpaid. By express or freight, pk. 60c., ½ bu. \$1.10, bu. \$2.00. Sacks free.

MORTGAGE LIFTER YELLOW DENT CORN—This is one of the best of the Yellow Dent variety. The stalks grow quick, rank and green and mature in 85 to 95 days. Ears are perfect, with 14 to 24 rows on a cob; grains are largest of any yellow dent corn; it husks and shells easily and brings highest market price as it will sell on sight on account of its handsome appearance. It cures in the shock where other large cob varieties will mould and spoil. Our stock is very fine. Try it. Pkt., 10c.; pt., 20c.; qt., 35c. postpaid. By express or freight. 4 qts. 40c.; pk., 65c.; ½ bu., \$1.10c.; bu., \$2.00.

IOWA GOLD MINE YELLOW DENT CORN—Popular with all and preferred by many. Ripens as early as any yellow dent corn we know of Ears are good size and bright golden yellow in color. Deep grains, small cob, and it cures quickly. 70 pounds of corn on cob makes 62 to 63 pounds of shelled corn. Pkt., 10c.; pt., 20c.; qt., 35c., postpaid, By express or freight, not prepaid, 4qts., 40c.; pk., 60c., ½ bu., \$1.10; bu., \$2.00. Sacks free.

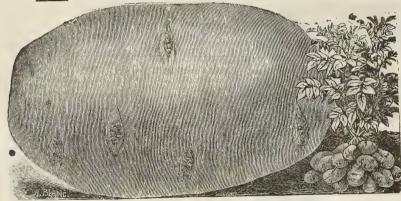

Irish Cobbler Potato

NE of the most reliable early Potatoes that we have ever offered. It ripens almost with the offered. It ripens almost with the earliest; is so uniform that every hill seems to ripen at the same time. The yield is very large for an early variety, and equal to some of the late. ones in bushels per acre. The flesh is pure white and of the finest quality—not excelled by any other early variety on the market. Its strong variety on the market. Its strong growth, earliness, uniformity, large yield and very handsome appearance have brought the Early Irish Cobbler to the front as a profitable variety for the market and home use. Our stock is very fine, having been grown on rich sandy soil, and is therefore free from scab. For anearly potato you should try no other. By mail, postpaid. Ib. 30c., Pk., '50c., ½ by., 80.; bu. \$1.50. Special prices on larger quantities by freight.

SMITHS' BLIGHTLESS WONDER POTATO

This extra fine potato has been under our careful observation for the past four years and have failed to blight during this time. They have been grown in the same field with other potatoes and where the others have blighted, these have held firm and green until time to ripen up. The vines are very large and strong and hold a dark green color for a long time. The potates are long and smooth, somewhat larger in the middle, and of a straw color, and are very fine eating and good keepers in the winter. They are great yielders, and have gone over 400 bushels per acre. There are many so-called blightless potatoes, but we believe these will lead any other variety that is offered, and are as near blight proof as can be obtained. We are the only seed house that has this stock to offer and we advise you to place your order early. Prices—1b. 35c., 3 lbs. 75c., postpaid. By express or freight, pk. 60c., ½ bu. \$1.00, bu. \$1.75., 1 bbl. \$4.00. order early. Prices-lb. bu. \$1.75., 1 bbl. \$4.00.

LATE RED BLIGHTLESS AND BUGLESS POTATO

This potato is without doubt one of the newest and best ever offered, being a blood red skin and pure white within, a fine eating potato and extra good to keep through the winter and spring. We have been experimenting with them for the past two years and have found them a wonder and during that time have failed to blight or the bugs go near them. You must try them and satisfy yourself, and we are only offering them in eye and pound lots as we wish everyone to try them and start this new potato for themselves. The potato is very fine and smooth having been grown especially for us to offer our mail order trade. Orders can be placed at once and eyes will be mailed promptly if weather will permit, or as

soon as we think best. Eyes packed in a box so they will not dry out or freeze; 10 eyes have sold for the last four years has more than repaid us 25c., 25 eyes 40c., 50 eyes 65c., 100 eyes \$1.00, or 1 lb. whole for the time and money spent in introducing them to the potatoes for 50c., all postpaid. 100 eyes should produce 5 or 6 bushels of saleable potatoes.

OATS TREE NEW

These Oats are what the average farmer is looking for; they grow on all sides of the stalk and are very bushy, which makes them very large yielders. Straw grows often five feet high and is very stiff and extra good to sow with Peas and Vetches, they will not lodge or get down like many other varieties and therefore are especially good on that account. They will yield nearly as good as our Highland Oats and weigh from 35 to 40 pounds per measured bushel.

We would like all farmers to change their seed and try some of these oats, and we are sure you will give us a good report next fall.

Our crop is very large, therefore we are offering them at a very low price. They are very clean and free from rust and are of a rich color.

Packet of 2 ozs. 10c., lb. 25c., 3 lbs. 60c., postpaid. By express or freight, pk, 35c., ½ bu. 60c., bu. \$1.00, 10 bu. \$9.50. bu. \$1.40, 2 bu. \$2.50, 5 bu. \$6.00, 10 bu. \$11.00, Special prices on larger orders. Bags free.

Smiths' Highland Oats.

The reports that we have received on the Oats that we farmers of the United States. The Highland Oat is one of the new seeds of great merit which far surpasses anything we know of in the oat line. The straw is very long and stiff, growing from four to six feet high, often running a head of more than a foot in length and known as the Horse Mane Oat with a peculiar stalk that makes it strong and excellent to grow with peas for fodder. The grain is short and meaty and of a bright yellow color when ripe, with very thin hulls, and we have them this year weighing from 36 to 45 pounds per measured bushel and running from 75 to 85 bushels per acre. We are the only seed house that has this stock. We have raised oats for more than 20 years and fail to find anything that will equal them under all conditions. Many letters have been received of the wonderful yields and the satisfaction given therefore we are compelled to offer them again.

Prices as follows:-Pkt. 6c., lb. 30c., 3 lbs. 70c., postpaid. By express or freight, peck 40c., ½ bu. 75c., (32 lbs, to bu.) Special prices on large orders. Sacks free

LONG SMOOTH, OR HOLLOW CROWN PARSNIP

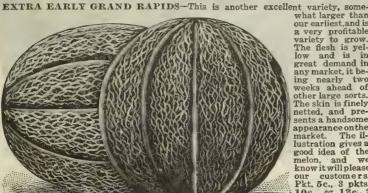

Produces a long, smooth root, being tender and of excellent flavor. Requires a deep, clean rich soil and willproduce large crops. This variety is prefer red by many.

Pkt. 5c., 3 pkts. 10c., oz. 8c., 2 ozs. 15c., 1/4 lb. 25c., ½ lb. 40c. lh. 60¢

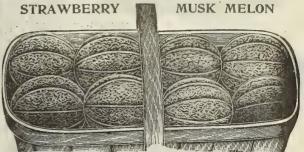

This is our favorite variety, and we believe to it is the earliest of all the yellow fleshed musk melons. The melons are uniform in size, with a tough, thin rind with closely laced gray netting. The meat is of reddish orange, very thick and fine grained and of splendid flavor, while the seed cavity is very small. The average weight is from 2½ to 3 pounds each, while che length is about 6 inches and the thickness 1½ inches. On account of its extreme carliness and excellent quality, we are sure our customers will say this is the grandest musk melonof all the earliest. Pkt. 5c.. 3 pkts. 10c., oz.12c., 2 ozs.20c., ½ lb.35c., ½ lb.60c.

what larger than our earliest, and is our earnest, and is a very profitable variety to grow. The flesh is yel-low and is in great demand in any market, it be-ing nearly two weeks ahead of other large sorts. The skin is finely netted, and pre-sents a handsome

sents a handsome appearance on the market. The illustration gives a good idea of the melon, and we know it will please our customers. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2

Ozs. 20c.

This variety is considered quite a novelty being only recently introduced. The originator claims it has a flavor like that of astrawberry hence its name. It is of the small netted type, and the fruits weigh from five to ten pounds each. Its flesh is of an attractive orange red color, and is highly recommended by all who have grownit. Color of the outside is green, turning to yellow as it ripens. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

Hackensack

SMITHS' PERFECTION

EMERALD GEM

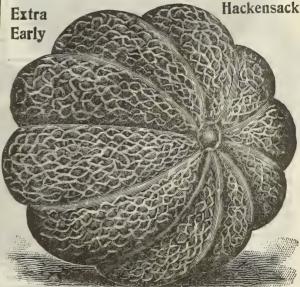

This is another splendid melon. Skin is smooth, emerald green in color, and the fruit is of a very attractive size, as will be seen by the engraving. Vines grow thrifty and produce an abundance of fruit. Quality is the very best and a weighing from five to eight pounds each. Skin melon worthy of a place in any garden. It is a dark green color, heavily netted, flesh of a salmon color, rich and sweet flavored. It is a first class musk melon, Pkt. 4c., 3 pkts. 8c., oz., 10c., 2 ozs. 18c., ¼ lb. 30c.

DINITED

THIS IS another splendid melon. Skin is smooth, emerald green in color, and the fruit is of a very attractive size, as will be seen by the engraving. Vines grow thrifty and produce an abundance of fruit. Quality is the very best and a melon worthy of a place in any garden. Pkt. 5c., 3 pkts. 12c., oz. 15c., ¼ lb. 50c.

SMITHS' MUSE

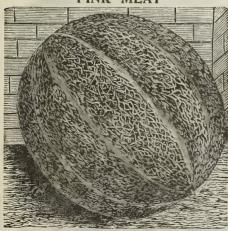

SMITHS' MUSK MELON MIX-TURE—For the benefit of those who want a great collection of musk melons, we have made up this special mixture, which contains special mixture, which contains a large number of varieties. An abundance of early fruit and a continual supply throughout the season of all the different shapes and sizes will be produced. Pkt. 4c., 3 pkts. 8c., 7 pkts, 15c., oz. 9c., 2 ozs. 16c.

This variety comes from a selection of the popular Hackensack, but ripens several days earlier, while the melons weigh from 5 to 10 pounds each. The shape and color are similar to the parent, the main difference being in the point of earliness. It is round, well ribbed, and ripens several days earner, while the intents will also each. The shape and color are similar to the parent, the ence being in the point of earliness. It is round, well heavily netted. Flesh is rich and sugary.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c.

PINK MEAT

very close to the rind. The rind is very tough, yet thin

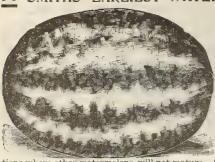

CASABA

Casabas are a late variety of musk melons to be classed in a variety by themselves. They should be planted after all danger of frost in spring, and just before frost in the fall, all melons, even half grown, should be picked and put in a dry place, where they will ripen gradually and give a continual supply all winter. We offer two va-Frieties.

PINK MEAT—This is a new melon originated in Colorado, and is one of the very best for shipping purposes. The flesh is a pink or orange color, seed cavity very small, and the flesh is solid, of the best quality very small, and the flesh is solid, of the best quality very close to the rind. The rind is very target yet thin.

very close to the rind. The rind is very tough, yet thin well arched ribs covered with laced and interlaced gray netting. Grows to just the size for family use Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., 4 lb. 40c., ½ lb. 75c., lb. \$1.25.

14 SMITHS' EARLIEST WATER MELON

We claim this watermelon is the earliest and best variety grown. Its flavor is delicious, very sweet and always very attractive on the market. We conmarket. THE TELEPHONE

For a main crop there is no better variety, Grows very strong, attaining a height of about 4 feet. The stalks grow very prolific and produce a large number of pods. Pods are always very large and well filled with immense wrinkled peas, six to eight being the average, while ten to twelve peas to a pod are frequent-ly found. The quality is excellent, and for family gardens it will be hard to find a better variety than the Telephone. Pkt. 5c., 3 pkts. 12c., ½ pt. 18c., pt. 30c., qt. 55c., postpaid. By express or freight, not prepaid, peck \$2.00.

THE EVERBEARING

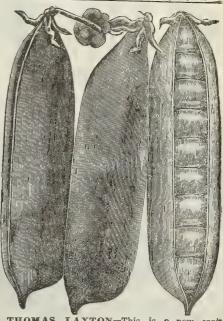

This is a good wrinkled pea, grows from 18 inches to 2 feet high, Stalks branch freely, producing pods about 4 inches long of very good size producing large sized peas of the very best quality. It is an everbearing variety, having a peculiar branching character, forming as high as eight stalks from a single rootstalk. It certainly is one of the very best peas of its class peas of its class.

Pkt. 5c., 3 pkts. 12c., ½ pt. 16c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, peck \$2.00.

THE ENORMOUS

This variety is rightly named Enormous, for This variety is rightly named Enormous, for it does grow enormous sized pods containing enormous sized peas. The stalks grow about 4 feet high and are very strong and healthy. They are enormous yielders, peas being larger than any other variety we know of. They are entirely free from mildew, and stand at the head of the list for large size and excellent quality. Try them this year.

Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., qt. 60c., postpaid. By express or freight, not prepaid. peck \$2.50.

THOMAS LAXTON—This is a new early wrinkled pea nearly as early as First of All. Stalks grow only about 3 feet high, while the pods are large and contain seven or eight very large peas of the richest flavor. We do not think there is an early included the state of th richest fiavor. We do not think there is an early wrinkled pea that can equal it. Pkt. 5c., 3 pkts. 12c., ½ pt. 18c., pt. 30c., qt. 55c., postpaid. By express or freight, peck \$2.00.

SMITHS' PUMPKIN MIXTURE-We have made mixTuke—we have made up a great mixture of Pumpkins which include nearly all the varieties in cultivation, and will produce an abundance of early, medium and late sorts with the odd shaped and mammoth varie-ties which will produce many curiosities If you plant this mixture you will get pump-kins of every imaginable Rins of every imagnable shape and color and we would like to have our custo-mers try it. Pkt. 5c., 3 pkts, 12c., oz, 10c., ¼
lb. 30c., ½ lb. 50c.

Burbank's Crimson Winter RHUBARB

Burbank's Crimson Winter Rhubarbis one of the greatest and most valuable Novelties we have ever offered. It is the earliest of all Rhubarb, and fit for use, not only in the spring, but all through the summer and fall, while common sorts are fit to use only a few weeks in spring. As fast as stalks are pulled new ones take their place, and in the south or Pacific states, it may be used all the year, requiring only water in dry localities to keep it growing. Stalks are of medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb, fully equal to the finest berries for sauce or pies and is really a combina-tion of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it and when cooked a beautiful crimson sauce is the result, looking and tasting like berries. It is especially adapted for forcing in green-houses or cold frames. It will stand frosts which will destroy any other sort. Rhubarb is the first vegetable we have from the ground in spring and it is the easiest plant of all the perennials to grow. A half dozen plants will supply a large family during the season, and plants once established will last We offer good seed grown espefor years. cially for us from true stock and urge every customer to start a few plants this year. Pkt., 6c.; 3 pkts 15c.; 7 pkts., 30c.

SWISS CHARD OR SPINACH BEET

LARGE RIB. BED WHITE
-This variety ible roots like the regular garden beets, but is grown for the broad white leaf-stalks, which are bunched and cooked in the

same manner as asparagus, and make a delicious Summer vegetable. The young leaves may be gathered also and cooked like spinach, and by many are considered more delicious in flavor. Per pkt. 5c., 3 pkts. 10c., oz. 12c., ¼ lb. 25c., ½ lb. 40c., per lb. 70c. 2 lbs. \$1.25, postpaid.

EGG PLANTS

NEW TREE

Plants grow tall and stocky, branching freely, holding their fruit up well from the ground. Fruit is handsome, dark purple color, fine size, very early and keeps well. Quality is the very best and we know our customers will say that this is a wonderful egg plant. We have a choice lot of seed direct from headquarters. Pkt. 6c., 3 pkts, 15c.

NEW YORK IMPROVED LARGE PURPLE

Skin deep purple; free from thorns; flesh white; is quite pro-ductive. Per pkt, 5c, 3 pkts. 12c., ½ oz. 20c., oz. 30c.

BLACK BEAUTY

One of the earliest and best of the large fruited egg plants. The skin is a rich purple black, very productive, and a real beauty. Pkt. 5c., 3 pkts. 12c., ½ oz. 25c,

THIS STRAWBERRY GUAVA is a magnificent new pot plant, both useful and ornamental. The fruit is a beautiful claret color, about the size of an English walnut and the flavor somewhat resembles a strawberry. It blooms and fruits continuously and when plants are well established will produce buds, flowers or fruits every day in the year. It can be used as a desert fruit, preserving and makes jelly of delicious quality. It can be grown in pots, boxes or the open ground, and as many as 500 fruits have been produced on a plant a year and a half old. Pkt. 8c.; 3 for 20c.

MAMMOTH FRUITED GROUND CHERRY

MAMMOTH FRUITED GROUND CHERRY

This is the most prolific Ground Cherry ever offered, and the fruit is about double and the fruit is about double the size of any other variety. Has dark purple egg plant colored skin with green flesh. They are excellent for preserving purposes. The plants grow about 2½ feet high and are very heavy bearers of fruit in any ordinary garden soil. Plants start quickly from seed, and they fruit véry early. Try them this year. Pkt. 5c., 3 pkts. 12c. them this pkts. 12c.

DOMESTIC COFFEE BERRY

This berry or bean is easily This berry or bean is easily grown in any ordinary garden soil and very prolific. The plant grows very strong, producing a great abundance of pods containing the coffee berries. It makes an excellent drink, very nearly equal to good lays coffee. It can be planted. Java coffee. It can be planted in May and cared for the same as beans and will be found as good a substitute for coffee as any cereal used. Do not fail to plant a few in your garden this year, and see what they will produce. Pkt., 5c.; 3 pkts., 12c.; ½ pt., 20c.

EGYPTIAN WHEAT CORN

CULTIVATED EX-TENSIVELY IN INDIA.

This is a novelty from India, and is cultivated very extensivelv that country. It been brought to this country, and has been known under the name of Shallu, while in this country it is known under the names of Cali-fornia Rice Corn, California Wheat and Egyptian Wheat Corn, Asa grain it is much more valuable than Kaffir Corn and yields a larger amount of seed. It is of stooling habit, producing from three to six stalks

from a single grain. The heads grow similar to broom corn, forming large heads of round, plump, white seed. Makes excellent feed for horses, cattle and chickens, and when ground makes excellent flour for pancakes. Besides, it can be popped as popcorn, being very tender and crisp. It is a novelty which will prove very interesting as well as valuable. Pkt. 5c., 3 pkts. 12c., 44 lb. 15c., 42 lb. 25c., lb. 40c., 3 lbs. \$1.00, postpaid.

This engraving was made from a photograph.

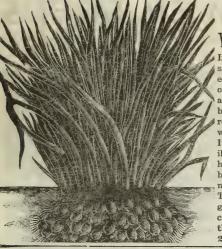

DOMESTIC COFFEE BERRY

CHINESE LANTERN PLANT

When treated like a tomato it grows and fruits freely from seed the first season. Produces numerous large, unfolded husks, the shape of Chinese lanterns, at first a beautiful green color changing to yellow hue, then to bright scarlet. For pies, or dried in sugar for fruit cakes or puddings, it is most delicious. It is a Japanese production easily grown in any garden. Pkt., 5c.; 3 pkts., 12c., postpaid.

Ground Almonds

WE are sure these will give our cus tomers a great deal of satisfaction-If the nuts are planted in the Spring, the same as potatoes a big crop may be expected about potato harvest time. The nut is of fine flavor, resembling the cocoanut or almond, and is very appropriate on the table with candies or used as an after-dinner relish. The meat is snow-white, covered with a thin shell or skin of brown color. It grows in the ground, as shown in the illustration, producing an abundance of handsome green foliage, resembling wide blades of grass and is very prolific, a single nut yielding 150 to 250 nuts in a hill. They will do well on any kind of soil and grow so rapidly and produce such immense crops you will be more than pleased with them. Pkt. 5c.: 3 pkts., 14c.; 6 pkts.

Wonderberr

berry is claimed to be a creation of Luther Burbank and adapted to pot as well as open as well as open ground culture. It has been largely ad-vertised through-out the country, and we have the genu-ine seed to offer to anyone who may want it. It will produce fruit in three to four months after sowing the seed and is quite an interesting plant. Its fruit in shape and color resembles huckleberries, are not so large. are not so large. A single bush will produce a large quantity of fruit. Pkt., 6c.; 3 pkts., 15c.

The Wonder

MAMMOTH PEANUTS

Peanuts can be successfully grown in almost any place where corn succeeds. This variety contains earliness and large size, is also very prolific as is shown by the engraving from photo. Every part is useful: the vines as valuable feed for horses cattle and sheep; producing from one to two tons of vines per acre, while the nuts contain a large percent of rich nourishment. They do best on a light sandy soil; but will produce a good crop on any open soil when it is plowed deep and carefully tilled. Plant them in rows 21/2 to 3 feet apart and from 9 to 12 inches in the row under about 2 inches of dirt. It you grow a crop of peanuts you will also find that your soil has been benifited nearly as much as if sown to clover. We encourage everyone to try a crop of peanuts if only grown for home use. Pkt., 5c.; 3 pkts., 12c.; pt., 20c.; qt., 35c.; 2 qts. 60c., postpaid.

Brazilian or Stooling Flour Corn 23

This Corn yields four times more corn to the acre than any common corn, and a great deal more in shelled corn. It stools like wheat, each kernel producing from 4 to 8 stalks, with from 3 to 4 ears on each stalk about 5 to 6 inches in circumference and from 9 to 12 inches in length of pure white kernels. It is the best variety for ensilage. It contains a larger per centage of starch than any other corn and when ground and bolted by the same process as wheat, gives a better bread and biscuit flour than can be made from wheat. It is also used largely as roasting ears. Only two kernels should be planted to the hill and afterward thin to one and cultivate same as other corn. Pkt, 6c., 3 pkts. 15c., 1/2 pt. 20c., pt. 35c., postpaid.

THE TEA PLANT

The Tea Plant is a very inter esting plant to grow and is sure to attract a great deal of attention. It can be readily started from the seeds which we have obtained. The plant grows in bush form and in autumn is covered with handsome, fragrant, whitish flowers having a golden yellow center making it an excellent ornamental plant There is no house-plant more interesting and we advise you to start a few plants. Seeds. per pkt., 8c.; 3 pkts., 20c.

The Vegetable Orange

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than a Musk Melon vine, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an Orange of a bright yellow color, somewhat russeted. In the west where fruit is scarce, this Orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid and can be used in many ways. Pkt., 5c., 3 pkts., 122, 236.

GREAT 1911 SEED OFFER == 15 packets for 25c.—This special offer of regular size packets at less than 2c. each. is offered to get people who are not our regular customers to try our seeds, knowing that once tried they will always be used. Every one who reads this special offer should send for it, as it is not a lot of cheap seeds, but taken from our regular stock.

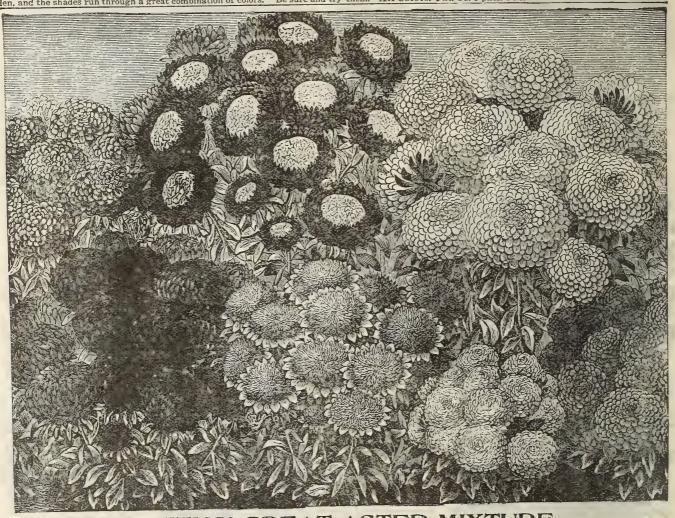

This Offer is mailed, postpaid, to everyone who sends us 25c. Order now.

24 SMITHS' CHOICE FLOWER SEEDS

Smiths' Giant Flowering Asters (See Inside Back Cover) We believe this is the highest grade of Giant Flowering Asters in cultivasoms, massive and showy, resembling good sized Chrysanthemums. They run through a great combination of colors, such as shell pink, crimson, lavender, rose pink, purple, etc. We want you to try them. All colors. Pkt. 6c., 3 pkts. 15c.

New Bouquet Asters

[See Inside Back Cover] This is a very handsome Aster, especially suited for pot culture or border for flower beds. The plants are completely covered with blossoms, forming a handsome bouquet. They may be grown in the house or in the gareden, and the shades run through a great combination of colors. Be sure and try them. All Colors. Pkt. 6c. 3 pkts. 15c.

SMITHS' GREAT ASTER MIXTURE

If you want the greatest variety of asters ever collected, you should grow this mixture. It contains more than a hundred different varieties, each variety made up of several separate colors selected from such classes as the Dwarf German, Dwarf Victoria, Comet, Quilled German, Lilliput Flower, Large Globe Flowered, Christmas Tree, Princess, Lady Mignon, Pearl, Victoria, Ball or Jewel, Ostrich Plume, Peony Flowered, Tall Chrysanthemum, and a great many other sorts, which will produce a magnificent display of flowers impossible to describe. It is a wonderful collection, and you should try it. Two or three packets of seed will produce a large number of plants. Pkt. 5c. 3 pkts. 12c., 7 pkts. 25c.

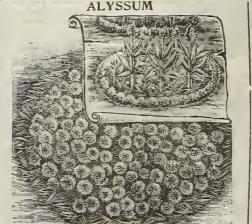

LITTLE BLUE STAR—Plants grow only about 4 inches high and are completely covered with bright blue flowers. Pkt. 4c., 3 pkts. 10c.,

ALL COLORS MIXED

Plants grow only four or five inches high, and are completely covered with flowers. Make excellent edging plants on account of the wonderful profusion of bloom and small size.

Pkt. 4c. 3 pkts. 10c.

SWEET-This is pure white, much used for borders; is fragrant and produces very delicate flowers. Pkt. 4c., 3 pkts., 10c.,

LITTLE GEM-Grows from two to four inches high, One plant will completely cover a circle ten by twelve inches in diameter. Very fragrant, flowers are pure white. Pkt. 4c., 3 pkts. 10c.

SMITHS' FANCY MIXTURE

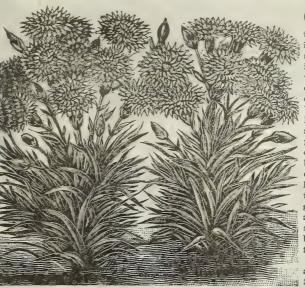

This is the very best Balsam mix-ture to be found. It contains all the different shades of pink, crim-son, spotted, red, etc. It produces plants that are covered with very large double flowers all the shades imaginable. It is a favorite where-ever grown.

ever grown.
Pkt. 5c., 3 pkts. 12c.,

BABY ROSE

This is a Wonderful Rose. It will produce semi-louble and double flowers from 2 to 3 months after double and double flowers from 2 to 3 months after sowing seed. Long before that however, when the plant is not over 1½ inches high, and having 2 or 3 very small leaves, it will throw off from 1 to 3 single flowers about the size of strawberry blossoms, but much more delicate, and very attractive as it plainly snows the true rose bush type. With the increase in size of the plant, the blossoms increase until it is a magnificent sight. It is a hardy hybrid perpertual everblooming Rose, sure to be in bloom from spring until winter. The seed is mixed and from one packet of seed you will get pink, crimson, white and various shades. Pkt. 8c., 3 pkts, 20c., 6 pkts. 35c.

SMITHS' EARLY GIANT FLOWERING CARNATIONS

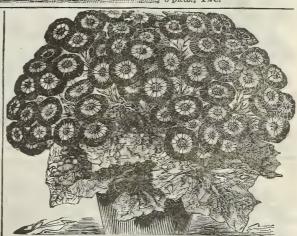

OUR early flowering carnations will produce flowers in three or four months after sowing the seed. We are sure this new Giant Perpetual Blooming Carnation will astonish all who grow it. The seed we offer will produce a large percentage of double flowers. While the plant is dwarf in habit it branches freely as is shown by the illustration and produces a great variety of colors, such as deep pink, white, blush, carmine, salmon, scarlet, dark crimson, marcon, many having beautiful fringed petals that are very fragrant. Plants grow easily anywhere and in about twelve weeks after the seed is sown they begin to bloom and continue until frost comes. Try our Seed. We offer a very early strain.

all colors mixed. Pkt., 5c,; 3 pkts., 12c.

BIRD OF PARADISE

This is quite a novelty and a very pleasing plant; flowers are of golden yellow: of beautiful shape, measuring about 21/2 inches across. They are produced in very large trusses which bloom in great profusion the first year, if sown early in the spring, and the plant will grow from three to five feet tall. It can be grown inside in winter, if desired. Be sure and try it. Pkt., 5c.; 3 pkts., 12c.

CINERARIA—A beautiful plant for the window and can be easily grown. Plantsgrow about as broad as high and are covered with large flowers of very brilliant colors, ranging through all shades of crimson and blue, while some have white centers or borders. Finest mixed colors. Pkt., 8c.; 3 pkts. 20c.

CANTERBURY BELLS AND COLORS

Garden Huckleberry

Fruits in Four Months from Seed

This new fruit belongs, botanically, to the same family as the potato, egg plant and tomato, and in some sections has become very popular. The fruit should not be used when green or in a raw state, but when ripe is excellent for pies, preserves, etc. It is easily grown from seed and bears an abundance of fruit that ripens in the fall. The color when ripe is a shining jet black. The plant should be treated and cultivated the same as tomatoes Plant seeds in a box or pan in the house and plant? out of doors when danger of frost is past. It is a very prolific yielder, always producing an immense crop of fruit, is not hardy, but must be planted each season from seed. Our illustration was made direct from plants growing in September and gives an idea of the immense quantities of fruit a plant will produce. It is claimed that a frost will improve the quality of the fruit, and they wil cook up much finer and with better flavor. Try them this year. You will be pleased.

Seeds per pkt 6c., 3 pkts. 15c., 6 pkts. 25c.

IN FOUR MONTHS FROM SEED

An Interesting Berry--Everbearing Strawberry

(See Front Cover for Engraving of Plant)

Here is an Everbearing Strawberry that grows freely from seed and will fruit the first summer in about four months from sowing seed. The seed can be sown early in the spring in the house or hot bed, and will soon produce young plants; seed can be sown later in open garden if desired. The plants grow very fast and in a short time will be large enough to transplant in the garden. If the seed is sown by March, the plants will begin to bloom early in July, and in from two to three weeks will begin to bear ripe fruit.

The valuable point about this New Berry is that from the time the first ripe fruit appears they continue to fruit until late in the fall. The Berries are not quite so large as garden varieties, but they are much higher flavored and of excellent quality. They are enormous yielders, single plants having produced nearly half pint of Berries as late as October. They are perfectly hardy and will grow anywhere. We recommend all our customers to try this grand Berry this year. Think of it-grow Strawberries from seed and have delicious fruit all summer. Seed per pkt. 10c., 3 pkts. 25c.

If you receive more than one of these Catalogues we shall esteem it a favor if you will hand the extras to neighbors who buy seeds. SMITH BROS. SEED CO., Auburn, N. Y.
